

Radiant Systems Selects Baxter Planning Systems

Products, Baxter team and customer support key in decision to go with leading service parts planner.

Austin, Texas - January 30, 2007 - Baxter Planning Systems (www.bybaxter.com), the premier provider of aftermarket parts planning solutions, today announced that Radiant Systems, Inc. (Nasdaq: RADS) has selected Baxter's industry leading parts planning solution *Prophet by Baxter* as its Global Planning solution. Radiant Systems, a leader in providing innovative technology to the hospitality and retail industries, recognized the superior value provided by Baxter Planning Systems and the *Prophet by Baxter* solution.

"The reasons for selecting Baxter are twofold," Bob Davis, Senior Manager of Field Services for Radiant Systems. "The products and the team at Baxter have the capability to meet the needs of our ever expanding global service parts network as well as the customer support necessary to ensure that Radiant is fully optimizing service capabilities while minimizing operational costs."

The added capabilities provided by *Prophet by Baxter* will generate a greater return on investment and deliver additional functionality necessary for Radiant's global service parts planning. Baxter will be integrated with Radiant's existing systems and will be entirely functional by the end of the first quarter this year.

"Radiant's decision to select Baxter is based on Baxter's superior ability to plan and manage global, multi-echelon service networks and Baxter's unmatched support capabilities," said Greg Baxter, founder and CEO of Baxter Planning Systems.

"Radiant is one of two new Baxter service parts planning clients already signed in 2007 and we are thrilled to add Radiant Systems as a client."

"*Prophet by Baxter's* ability to model complex global networks and optimize inventory levels within the network was key to Radiant's decision," continued Baxter."

With this announcement, Baxter continues to build on the momentum generated throughout 2006, where the company grew its customer base by 50% and re-signed all eligible 2006 renewal agreements.

In addition, Baxter was also recognized in 2006 for the third consecutive year as one of *Global Logistics & Supply Chain Strategies 100 Great Supply Chain Partners* and selected to *Supply & Demand Chain Executive Magazine's 2006 Executive 100 List*.
