

Baxter Planning Systems Chosen by Data Domain for Service Parts Planning

Baxter's Advanced Tools and Outsourced Planning to be Used

Austin, Texas – February 19, 2009 – Baxter Planning Systems (www.bybaxter.com), the premier provider of service parts planning solutions, announced today that Data Domain, Inc., the leading provider of deduplication storage systems, has selected Baxter's industry-leading On-Demand Planning solution to support their global service parts planning requirements.

“Baxter's unique solution of state-of-the-art service parts planning tools, comprehensive IT services and the best-in-class planning resources helps us rapidly deploy the strategies necessary to achieve superior customer service levels and optimized inventory,” said Kent McLaggan, Director of Global Logistics for Data Domain. “Baxter's On-Demand Planning solution allows us to deploy a world class planning team (Baxter's) without any delays or learning curve, while freeing our internal resources to focus on continuous improvement via the design and deployment of strategic service initiatives.”

The industry-leading deduplication storage technology company has selected Baxter's end-to-end managed services, including a full compliment of *Prophet by Baxter* Distribution Center and Field Planning modules, Baxter's experienced service parts planners and Baxter's hosted Software as a Service (SaaS) solution. Data Domain's agreement also includes intelligent production processing services as well as the automatic implementation of new software releases without the need for internal resources.

About Baxter Planning Systems, Inc.

Since 1993, Baxter has pioneered the development of Web-based solutions to meet the unique demands of after-market, service, repair, and spare parts industries. The Prophet by Baxter™ suite of integrated forecasting and planning applications enables Baxter's clients to achieve industry-leading customer service levels while significantly increasing profitability. Headquartered in Austin, Texas, Baxter is privately held, self-funded, and profitable. Global 2000 and Fortune 500 enterprises deploying Baxter solutions include 3Com, NEC, Extreme Networks, Agilent Technologies, Fujitsu, Silicon Graphics, Enterasys Networks, Alcatel-Lucent, Kodak and Philips Medical Systems.
